

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1-10. (cancelled)

11. (currently amended) Pillar protection combination comprising a plastic foam blanket, which can be fitted around a pillar, as well as a plastic sleeve fitted around said blanket, wherein said plastic foam has a foam matrix in which particles differing from the matrix with a particle size of between 0.1 and 10 mm are incorporated, said foam blanket comprising a number of blanket sections a distance (a) apart joined by a strip material, wherein said distance is the thickness of the foam material.

12. (previously presented) Pillar protection combination according to Claim 11, wherein said particles are bonded to the matrix by a binder.

13. (previously presented) Pillar protection combination according to claim 11, wherein said particles comprise a recycled material.

14. (previously presented) Pillar protection combination according to claim 11, for the protection of a polygonal pillar, wherein the number of sections of said blanket corresponds to a number of surfaces of said pillar to be protected.

15. (cancelled)

16. (previously presented) Pillar protection combination according to claim 11, wherein said sleeve is provided with information on the outside.

17. (previously presented) Pillar protection combination according to claim 11, wherein said sleeve is split in the longitudinal direction and is provided with a closure.

18. (previously presented) Pillar protection combination according to Claim 17, wherein said closure is a zip closure.

19. (previously presented) Pillar protection combination according to claim 11, wherein said sleeve comprises a sailcloth material.

20. (previously presented) Pillar protection combination according to claim 11, having an auxiliary sleeve provided with information to be fitted around said sleeve.

21. (new) Pillar protection combination according to claim 11, wherein said plastic foam is in the form of slabs all of which have a length and width greater than said thickness.

22. (new) Pillar protection combination according to claim 21, there being four said slabs in a series along said strip material.
